## How to Care for Acrylic:

- **Do not use abrasives or bottled cleaners that have alcohol, ammonia or citrus as they can dull the clear finish.**
- Do not use a paper towel to clean acrylic as it will scratch the surface.
- Wipe acrylic on a regular basis with a soft cloth to keep dust away. We recommend a microfiber cloth, other types of cloths may scratch the acrylic surface.
- For regular cleaning, we recommend using water and a microfiber cloth only.
- For the occasional need to wash the acrylic sides, we suggest a mild dishwashing soap (1-2 drops) and lukewarm water solution. Wash with a damp microfiber cloth. Rinse well. Dry by blotting with a damp cloth or chamois.
- If you would like to use a commercial cleaning product, we recommend Craftics® 20/20 Cleaner. It is certified non-toxic and specially formulated to clean acrylic and other hard plastic surfaces.

## Comment entretenir un meuble en Acrylique :

- **Ne pas utiliser de tissus abrasifs ou de produits d'entretien à base d'agrumes, contenant de l'alcool ou de l'ammoniaque, cela risquerait d'altérer la finition brillante.**
- Ne pas utiliser d'essuie-tout pour nettoyer un meuble en acrylique, vous risqueriez de rayer la surface.
- Nettoyer régulièrement la surface avec un chiffon doux afin d'enlever la poussière du meuble. Nous recommandons un tissu en microfibres, les autres types de tissu pouvant endommager la surface du meuble.
- Pour un entretien régulier, nous recommandons l'usage d'un tissu en microfibres et de l'eau.
- Lors d'un nettoyage occasionnel des parois en acrylique, nous recommandons l'utilisation d'un liquide vaisselle (1-2 gouttes) doux et de l'eau tiède. Nettoyer la paroi avec un tissu en microfibres humide. Rincer abondamment. Sécher en tamponnant avec une peau de chamois ou un tissu doux légèrement humide.
- Si vous souhaitez utiliser un produit d'entretien classique, nous recommandons Craftics 20/20 Cleaner. Certifié non toxique et spécialement formulé pour l'entretien et le nettoyage des surfaces en acryliques et plastiques.

# **WARNING**

Failure to follow these warnings and assembly instructions could result in serious injury or death.

**CAUTION:** Any mattress used in this crib must be at least 27 1/4 inches by 51 5/8 inches (69 cm x 131 cm) with a thickness not exceeding 6 inches (15 cm).

READ ALL INSTRUCTIONS BEFORE ASSEMBLING CRIB. KEEP THE MANUAL FOR FUTURE USE.

## *Use and Care*

\*To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

## **Strangulation Hazard**

\*Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a crib or attach strings to toys.

\*To help prevent strangulation tighten all fasteners. A child can trap parts of the body or clothing on loose fasteners.

\***DO NOT** place crib near window where cords from blinds or drapes may strangle a child.

## **Fall Hazard**

\*When child is able to pull to a standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out.

\*When child is able to climb out or reaches the height of 35 in. (90 cm), the crib shall no longer be used.

\*Check this product for damaged hardware, loose joints, missing parts or sharp edges before and after assembly and frequently during use. **DO NOT** use crib if any parts are missing, damaged or broken. Ask dealer or contact Spot On Square for replacement parts and instructional literature if needed. **DO NOT** substitute parts.

\***DO NOT** use a water mattress with this crib.

Check fasteners periodically for tightness. Do not overtighten. This may cause distortion or breakage.

\*Never use plastic shipping bags or other plastic film as mattress covers because they can cause suffocation.

\*Infants can suffocate in gaps between crib sides and a mattress that is too small.

\*Parents should ensure a safe environment for their child by checking the crib regularly before placing the child in the product. Please make sure that every component is properly and securely in place.

\*Do not use abrasive chemicals for cleaning. Wipe with a soft cotton cloth, moistened with water. If refinishing, use a non-toxic finish specified for children's products.

\*Follow warnings on all products in a crib.

\* Infants can suffocate on soft bedding. Never add a pillow or comforter. Never place additional padding under an infant. See top of mattress platform for warnings.

## CANADIAN REGULATIONS

Do not use this crib if you cannot exactly follow the accompanying instructions.

Do not use this crib for a child who can climb out of it or who is taller than 90 cm.

Do not place in or near this crib any cord, strap or similar item that could become wrapped around a child's neck.

Do not place this crib near a window or a patio door where a child could reach the cord of a blind or curtain and be strangled.

Ensure that the sides of this crib are properly latched or locked in the appropriate position when a child is left unattended in it.

Check this crib regularly before using it and do not use it if any parts are loose or missing or if there are any signs of damage. Do not substitute parts. Contact the manufacturer if replacement parts or additional instructions are needed.

Use a crib mattress that is no thicker than 15 cm and is of such a size that, when it is pushed firmly against any side of the crib, it does not leave a gap of more than 3 cm between the mattress and any part of the sides of the crib.

Children can suffocate on soft bedding. Do not place pillows, comforters or soft mattresses in this crib.

## REGLEMENTATIONS CANADIENNES

Ne pas utiliser le lit à moins d'être en mesure de suivre précisément les instructions qui l'accompagnent.

Ne pas utiliser le lit si l'enfant est capable d'en sortir ou mesure plus de 90 cm.

Ne pas mettre dans le lit ou à proximité de celui-ci des cordes, courroies ou objets semblables qui risqueraient de s'enrouler autour du cou de l'enfant.

Ne pas placer le lit près d'une fenêtre ou d'une porte-fenêtre où l'enfant pourrait se saisir des cordes d'un store ou d'un rideau et s'étrangler.

S'assurer que les côtés du lit, dans le cas où l'enfant y est laissé sans surveillance, sont bien enclenchés ou verrouillés à la position appropriée.

Vérifier régulièrement le lit préalablement à son utilisation et ne pas l'utiliser en cas de détection d'une pièce desserrée, de pièce manquante ou de tout signe de dommages. Ne pas substituer une pièce à une autre. Communiquer avec le fabricant pour obtenir, au besoin, une pièce de rechange ou des instructions supplémentaires.

Utiliser un matelas pour lit d'enfant dont l'épaisseur est d'au plus 15 cm et dont la superficie permet d'empêcher, lorsqu'il est poussé fermement contre un côté quelconque du lit, qu'un espace de plus de 3 cm soit créé entre le matelas et une partie quelconque de tout côté.

L'enfant peut s'étouffer en présence d'articles de literie mous. Ne pas mettre dans le lit d'oreiller, d'édredon ou de matelas mou.

step 3  
étape 3

step 4  
étape 4

Attaching ends to side panels:  
Lay side panels (A) on clean flat surface and push cross dowels (M) in the holes. Orient the slot on cross dowel in a horizontal position (see above drawing). Position the end panels, with mattress support anchors on the inside (B) and insert screws (P) in holes. Tighten screws (Do not over tighten). Repeat this on all four corners of the crib.

Attachez les extrémités aux cotés.  
Posez les cotés du berceau (A) sur une surface plate, propre et poussez des chevilles fâchées (M) dans les trous. Orientez chaque trou dans une position horizontale dans la cheville correspondante (voir le schéma ci-dessus). Placez les panneaux d'extrémité avec les ancrs de soutien du matelas à l'intérieur (B) et insérez les vis (P) dans les trous prévus à cet effet. Vissez correctement mais sans forcer ; répétez cette opération aux quatre coins du berceau.

T support 4 pieces

S Ø7x14 screw 8 pieces

Locate the three height positions on the inside of the end panels. Determine which of the three platform support positions will be used and push the platform support (T) into the corresponding holes (4 places).

Localisez les trois positions de hauteur à l'intérieur des panneaux d'extrémité. Déterminez la hauteur souhaitée et insérez le sommier (T) dans les trous correspondants (à 4 endroits).

step 10  
étape 10

Lower the mattress platform into the crib with the top side up (noted on platform). Align the platform with the platform supports (4 places) and screw in M6 metal head nut (Q) and washer (N). Place full size mattress in crib before use. Assembly is now complete. To adjust the platform level repeat steps 9 and 10 selecting appropriate position.

## ! WARNING

\*When child is able to pull to a standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out.

\*Place full size mattress in crib before use.

Storage: store in a cool, dry location.

Placez le sommier du berceau en retournant celui-ci (comme indiqué sur le schéma). Alignez le sommier avec les côtés du berceau (4 endroits) et vissez les vis de M6 en métal (Q) avec les vis Lock Washer (N). Placez ensuite le matelas dans le berceau avant son utilisation. Régler la hauteur du sommier en répétant les étapes 8 et 9 à la hauteur choisie.

## ! MISE EN GARDE

\*Lorsque l'enfant est capable de se mettre en position debout, placez le matelas à la position la plus basse et enlevez les bordures de protection, les grands jouets et des autres objets qui pourraient permettre à l'enfant de sortir.

\*Placez le matelas dans le berceau avant de l'utiliser.

Stockage: stocker dans un endroit frais et sec.
