WARNING

Failure to follow these warnings and assembly instructions could result in serious injury or death.

CAUTION: Any mattress used in this crib must be at least 27 1/4 inches by 51 5/8 inches (69 cm x 131 cm) with a thickness not exceeding 6 inches (15 cm).

READ ALL INSTRUCTIONS BEFORE ASSEMBLING CRIB. KEEP THE MANUAL FOR FUTURE USE.

Use and Care

*To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

Strangulation Hazard

*Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a crib or attach strings to toys.

*To help prevent strangulation tighten all fasteners. A child can trap parts of the body or clothing on loose fasteners.

***DO NOT** place crib near window where cords from blinds or drapes may strangle a child.

Fall Hazard

*When child is able to pull to a standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out.

*When child is able to climb out or reaches the height of 35 in. (90 cm), the crib shall no longer be used.

*Check this product for damaged hardware, loose joints, missing parts or sharp edges before and after assembly and frequently during use. **DO NOT** use crib if any parts are missing, damaged or broken. Ask dealer or contact Spot On Square for replacement parts and instructional literature if needed. **DO NOT** substitute parts.

***DO NOT** use a water mattress with this crib.

Check fasteners periodically for tightness. Do not overtighten. This may cause distortion or breakage.

*Never use plastic shipping bags or other plastic film as mattress covers because they can cause suffocation.

*Infants can suffocate in gaps between crib sides and a mattress that is too small.

*Parents should ensure a safe environment for their child by checking the crib regularly before placing the child in the product. Please make sure that every component is properly and securely in place.

*Do not use abrasive chemicals for cleaning. Wipe with a soft cotton cloth, moistened with water. If refinishing, use a non-toxic finish specified for children's products.

*Follow warnings on all products in a crib.

* Infants can suffocate on soft bedding. Never add a pillow or comforter. Never place additional padding under an infant. See top of mattress platform for warnings.

CANADIAN REGULATIONS

Do not use this crib if you cannot exactly follow the accompanying instructions.
Do not use this crib for a child who can climb out of it or who is taller than 90 cm.
Do not place in or near this crib any cord, strap or similar item that could become wrapped around a child's neck.
Do not place this crib near a window or a patio door where a child could reach the cord of a blind or curtain and be strangled.
Ensure that the sides of this crib are properly latched or locked in the appropriate position when a child is left unattended in it.
Check this crib regularly before using it and do not use it if any parts are loose or missing or if there are any signs of damage.
Do not substitute parts. Contact the manufacturer if replacement parts or additional instructions are needed.
Use a crib mattress that is no thicker than 15 cm and is of such a size that, when it is pushed firmly against any side of the crib, it does not leave a gap of more than 3 cm between the mattress and any part of the sides of the crib.
Children can suffocate on soft bedding. Do not place pillows, comforters or soft mattresses in this crib.

REGLEMENTATIONS CANADIENNES

Ne pas utiliser le lit à moins d'être en mesure de suivre précisément les instructions qui l'accompagnent.
Ne pas utiliser le lit si l'enfant est capable d'en sortir ou mesure plus de 90 cm.
Ne pas mettre dans le lit ou à proximité de celui-ci des cordes, courroies ou objets semblables qui risqueraient de s'enrouler autour du cou de l'enfant.
Ne pas placer le lit près d'une fenêtre ou d'une porte-fenêtre où l'enfant pourrait se saisir des cordes d'un store ou d'un rideau et s'étrangler.
S'assurer que les côtés du lit, dans le cas où l'enfant y est laissé sans surveillance, sont bien enclenchés ou verrouillés à la position appropriée.
Vérifier régulièrement le lit préalablement à son utilisation et ne pas l'utiliser en cas de détection d'une pièce desserrée, de pièce manquante ou de tout signe de dommages. Ne pas substituer une pièce à une autre. Communiquer avec le fabricant pour obtenir, au besoin, une pièce de rechange ou des instructions supplémentaires.
Utiliser un matelas pour lit d'enfant dont l'épaisseur est d'au plus 15 cm et dont la superficie permet d'empêcher, lorsqu'il est poussé fermement contre un côté quelconque du lit, qu'un espace de plus de 3 cm soit créé entre le matelas et une partie quelconque de tout côté.
L'enfant peut s'étouffer en présence d'articles de literie mous. Ne pas mettre dans le lit d'oreiller, d'édredon ou de matelas mou.

assembly instructions
instructions d'assemblage

step 1
étape 1

step 2
étape 2

Attaching ends to side panels:
Lay side panels (A) and end panels (B) on clean flat surface.
Position the end panels, with mattress support anchors on the inside and insert secure screws (G) in holes. Tighten screws (Do not over tighten).
Repeat this on all four corners of the crib.

step 3
étape 3

Attach legs (F) to base lath (D).

step 4
étape 4

Attach base sides (C) to base lath (D).

step 5
étape 5

Attaching base to crib:
Carefully lay crib on its side using care to avoid splitting wood at screw joints. Place base (C and D) inside crib and tighten screws (I) (Do not over tighten).

step 6
étape 6

Locate the three height positions on the inside of the end panels.
Determine which of the three platform positions will be used and
push the platform support (H) into the corresponding holes (4
places).
Locate les trois positions de hauteur sur l'intérieur des comités de
fin. Déterminez laquelle des trois positions de quai sera utilisée et la
poussée le soutien de quai (H) dans les trous correspondants (4
endroits).

step 7
étape 7

*When child is able to pull to a standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out.

*Place full size mattress in crib before use.

Storage: store in a cool, dry location.

Lower the mattress platform into the crib with the top side up (noted on platform). Align the platform with the platform supports (4 places) and screw in M6 metal head nut (J) and washer (I). Place full size mattress in crib before use. Assembly is now complete. To adjust the platform level repeat steps 3 and 4 selecting appropriate position.

Lower le quai de matelas dans le berceau avec le côté supérieur en haut (noté sur le quai). Mettez en ligne le quai avec les soutiens de quai (4 endroits) et vis dans la noix en métal M6 de tête (J) et la machine à laver (I). Placez le matelas de grandeur complet dans le berceau avant l'utilisation. L'assemblage est maintenant complet. Régler le niveau de quai répète des pas 3 et 4 choix la position appropriée.
